## Product Description

### Degradable bubble bag ,Logistics packaging bags,Pearlescent bubble bag

This product is biodegradable and environmentally friendly. After 12 months, it can be automatically divided into soil. It is mainly used in clothing, logistics and express delivery. Material: Our plastic bags are made of high-quality polyethylene material and have the advantages of durability, waterproof, moisture-proof, insect-proof, and low-temperature resistance. Size: We offer a variety of sizes for our plastic bags, from small bags to large bags, from handbags to Zipper bags, and from transparent bags to colored bags, allowing you to choose flexibly. Features, light body, good transparency, elastic, with good shock absorption, non-toxic, tasteless, moisture-proof, corrosion-resistant, anti-shock wear resistance.

Usage: Our plastic bags are widely used for packaging food, clothing, toys, cosmetics, shoes, stationery, and other products, and can also be used for medical purposes. Printing: Our plastic bags can be printed with various patterns, text, logos, and other information according to customer requirements to increase product promotion. Operation: Our plastic bags are easy to pack and seal, keeping your products dry, clean, and safe. If you have any questions or needs regarding our plastic bag products, please feel free to contact us. We will do our best to provide you with the highest quality products and services.
