Product Description

Material & Structure:

Outer Layer: Premium pearlescent film (PET/PP base with pearlized coating) offering shimmering visual effects and UV resistance.

Inner Layer: High-density bubble cushioning lining (anti-static options available) for impact protection.

Key Features:

Aesthetic Appeal

Lustrous surface enhances product presentation, ideal for luxury goods and retail packaging.

Customizable colors and logos (flexographic/digital printing supported).

Superior Protection

Bubble size options (ø10mm/ø25mm) adapt to item weight (0.5kg–5kg).

Waterproof film + air cushioning resists moisture, abrasion, and shock.

Lightweight & Durable

Total thickness: 80–150µm (film 30–50µm + bubbles 50–100µm).

Tensile strength: ≥25MPa (MD/TD).

Eco-Friendly Variants

Recyclable PE/PP materials meet EU REACH & RoHS standards.

Applications:

High-end cosmetics, jewelry, electronics (e.g., smartphones, watches).

Fragile items: glassware, ceramics, collectibles.

Optional Services:

Zip-lock seals, self-adhesive flaps, or tear-notches.

Anti-static treatment for electronic components (surface resistance 10^6 – $10^{11}\Omega$).

MOQ: 5,000 pcs (standard sizes), 3–7 days lead time.
