Basic Information

Product Specification

- Number Of Pieces: 7
- Service: ODM OEM
- Material Type Free: BPA Free
- Product Type: Model
- Non-Toxic: Yes
- Use: Pet Silicone Rice Bowl
- Waterproof: Yes
- Leadtime: 15 Days

Product Description

Product Description:

The Custom Silicone Products are a versatile and practical addition to any kitchen or workshop. These custom-made silicone products are designed to cater to a variety of needs, making them an essential item for any home cook or DIY enthusiast.

One of the key features of the Custom Silicone Products is their high-quality construction using food-grade silicone tubing. This material is not only durable and flexible but also safe for use with food and other sensitive materials. The product type of these silicone products is a model, which means they are designed to be a representation of a specific object or concept.

With a customizable size, the Custom Silicone Products can be tailored to fit your exact specifications. Whether you need a set of smaller pieces for intricate projects or larger pieces for more substantial tasks, these silicone products can be adjusted to suit your needs perfectly.

The Custom Silicone Products come in a set of 7 pieces, providing you with a range of options for different projects. This number of pieces offers versatility and flexibility, allowing you to tackle various tasks with ease.

Thanks to their multi-cavity design, the Custom Silicone Products are ideal for creating multiple replicas or models simultaneously. This feature saves time and effort, making these silicone products efficient and convenient to use.

One of the standout qualities of the Custom Silicone Products is their non-toxic nature. Made from food-grade silicone tubing, these products are free from harmful chemicals and safe for use in contact with food and beverages. This non-toxic attribute ensures that your health and well-being are protected while using these silicone products.

In conclusion, the Custom Silicone Products offer a combination of quality, versatility, and safety that make them an excellent choice for a range of applications. Whether you are a chef looking for reliable kitchen tools or a hobbyist in need of precision crafting materials, these custom-made silicone products are sure to meet your requirements.

Features:

Product Name: Custom Silicone Products

Leadtime: 15 Days

Waterproof: Yes

Use: Pet Silicone Rice Bowl

Occasion: Presents

Non-Toxic: Yes

Technical Parameters:

Waterproof	Yes
Cavity	Multi Cavity
Non-Toxic	Yes
Occasion	Presents
Size	Customizable
Keywords	Customized Silicone Soap Mould
Use	Pet Silicone Rice Bowl
Durability	High
Leadtime	15 Days
Material Type Free	BPA Free

Applications:

Custom Silicone Products, such as Food Safe Silicone Tubing, Food Grade Silicone Containers, and Food Grade Silicone Tubing, are versatile items that can be used in a wide range of applications and scenarios due to their high heat resistance, durability, non-toxic nature, customizable size, and multi-cavity design.

One of the key product application occasions for Custom Silicone Products is in the food industry. The high heat resistance of the silicone material makes it ideal for use in food processing, cooking, and baking. Food Safe Silicone Tubing can be used for transferring liquids and ingredients in commercial kitchens, while Food Grade Silicone Containers are perfect for storing and preserving food items. The customizable size of these silicone products allows for efficient storage and organization in busy food service environments.

Custom Silicone Products are also commonly used in the medical field due to their non-toxic properties. The non-toxic nature of silicone makes it safe for use in medical devices, equipment, and tools. The durability of these silicone products ensures that they can withstand frequent sterilization processes without degradation, making them a reliable choice for medical professionals.

Another important application scenario for Custom Silicone Products is in the manufacturing industry. The multi-cavity design of these silicone products allows for the production of multiple parts in a single mold, increasing efficiency and reducing production time. The high heat resistance and durability of silicone make it suitable for a variety of manufacturing processes, from molding to casting.

In conclusion, Custom Silicone Products are highly versatile items that find use in various industries and scenarios, thanks to their high heat resistance, durability, non-toxic nature, customizable size, and multi-cavity design. Whether in the food industry, medical field, manufacturing sector, or beyond, these silicone products offer reliable performance and practicality for a wide range of applications.
