

Recyclability Depends On Composite Materials Used Sustainable Solutions Guangdong Suitable For Environmentally Conscious Industries

Our Product Introduction

Basic Information

- Brand Name: Zipper Composite Plastic Bag Customizable
- Model Number: Customizable

Product Specification

- Sample: Available
- Item: Resealable Aluminum Foil Packaging Bags
- Type: Ziplock Bag
- Oem: Accpect
- Temperature Resistance: High Temperature Resistance
- Seal: Various Seal Options
- Water Resistance: Yes
- Surface Handling: Glossy/Matte Lamination
- Highlight: sustainable composite plastic bag,
recyclable composite materials bag,
environmentally conscious industries plastic bag

Product Description

Zipper Composite Plastic Bag

Product Description

The Zipper Composite Plastic Bag represents an innovative solution in the field of packaging, combining durability, functionality, and adaptability to meet diverse industry needs. Designed with multiple material layers, this product offers enhanced performance characteristics.

Key features include:

- Integrated zipper closure for easy resealing
- Effective preservation of freshness and moisture protection
- Constructed from composite materials (aluminum foil, polyethylene, nylon)
- Recyclability depends on specific material composition
- Full OEM customization available for size, shape, and design
- Multiple closure options including heat seals and press-to-close

This versatile packaging solution provides excellent protection for food items, pharmaceuticals, cosmetics, and other sensitive products while addressing modern demands for environmental responsibility.

Key Features

- Product Name:** Composite Plastic Bag
- Type:** Ziplock Bag
- Material Structure:** PET + AL + PE for enhanced durability
- Features a zipper for easy sealing and resealing
- Blocks harmful UV rays to protect contents
- Tearproof design ensures long-lasting use
- Customizable options available
- Biodegradable materials used for environmentally friendly disposal
- Samples available for quality inspection
- OEM accepted for tailored solutions

Technical Parameters

Parameter	Specification
Sample	Available
Water Resistance	Yes
Seal	Various Seal Options
Use	Clothing, Underwear, Children's Clothing
Benefits	Blocks UV Rays
Temperature Resistance	-40°C to 80°C
OEM	Accepted
Item	Resealable Aluminum Foil Packaging Bags
Closure	Various Closure Options

Applications

The Zipper Composite Plastic Bag is ideal for:

- Food packaging and storage
- Pharmaceutical and medical supplies
- Cosmetics and personal care products
- Small electronic components

Retail and consumer goods

Outdoor and travel use

Its tearproof construction, water resistance, and customizable options make it suitable for both everyday storage and specialized commercial applications. The availability of biodegradable materials addresses environmental concerns while maintaining product protection.
